

# BIOMIN<sup>®</sup> BOOSTER 126

Encapsulated Micronutrients

Plant Nutrition

**BIOMIN<sup>®</sup> BOOSTER 126** is a mixture of bioavailable plant nutrients. **BIOMIN<sup>®</sup> BOOSTER 126** is created using an encapsulation of the minerals boron, copper, iron, magnesium, manganese, and zinc with amino acids and natural organic acids. Under normal circumstances these minerals are subject to being tied up by other chemicals in the soil. Our patented process prevents the inactivation of these minerals from occurring. The amino acid and organic acid shells protect these minerals from interaction with other chemicals normally found in the environment. After they are inside the plant, these minerals is released and the remaining amino acids are used by the plant as a slow release source of nitrogen. Since the nitrogen is slow release, and present in small amounts, it does not produce unwanted vegetative growth after the flowering stage.

## BENEFITS OF USING BIOMIN<sup>®</sup> BOOSTER 126

- Quickly corrects mineral deficiencies
- Can be used at any growth stages
- Environmentally friendly
- Ingredients used in organic production for over 20 years.

## GENERAL RECOMMENDATIONS

**BIOMIN<sup>®</sup> BOOSTER 126** is completely bioavailable and non-phytotoxic to plants when applied according to directions.

**BIOMIN<sup>®</sup> BOOSTER 126** may be applied to all plants: all vegetables, avocado, citrus, fruit trees, grapes, lawns, nut trees, ornamental house plants, and strawberry.

PLANT	TIME OF APPLICATION	RATE PER GALLON OF WATER
House Plant	Once a month	2 tsp.
Vegetables	Every 2-3 months	3 1/2 tsp.
Lawns	Every 4-6 weeks	1 tsp for 250 sq. ft
Trees	As needed	3 tsp.
Hydroponic	As needed	150 ppm.

## OTHER SAFERGRO<sup>®</sup> PRODUCTS

### PLANT NUTRITION

- **ENDURANCE<sup>™</sup>** - Lawn Fertilizer
- **PHOSGARD<sup>®</sup>** - Plant Nutritions For Soil And Foliar Application

### PLANT PROTECTION

- **MILDEW CURE<sup>®</sup>** - All Natural Fungicide
- **WEED ZAP<sup>®</sup>** - Organic Herbicide

### SOIL AMENDMENT

- **MYCORMAX<sup>®</sup>** - Biological Root Inoculant
- **PH DOWN<sup>™</sup>** - Soil Acidifier

### PLANT MAINTENANCE

- **FLORAGARD<sup>®</sup>** - Cut Flower Preservative

## PACKAGING SIZES

1 Pint  
Concentrate

1 Quart  
Concentrate
